

Cursive Words

Joined-up VIC Modern Cursive letters and first
words — for when big capitals feel easy!

This book belongs to

A Note for Grown-ups

This book uses the **VIC Modern Cursive** style taught in Victorian schools — the same joined-up handwriting Evie will use for years to come.

Cursive is usually introduced a little later than the toddler years, so there's no rush at all. Let Evie lead: some days might just be finger-tracing the shapes in the air, and that's perfect too.

Each letter starts at the green dot. Encourage one smooth, unlifted stroke where you can — the loops and joins are what make cursive fast and fun once they click!

The Cursive Alphabet

Every cursive letter sits on the same four guide lines. Here's what they mean:

-  Green dot — start here
-  Solid line — sit letters on this
-  Dashed line — top of small letters
